Activities that will be part of the Community Anthology Project:

- **Oral history interviewing** – we need volunteers who are willing to be interviewers and interviewees to collect local memories, advice and knowledge
- **Training** – we will be running a training session for people who are interested in learning more about oral histories and community archives
- **Community workshops** – we will be having a parish walk to gather information and images of local areas, and a ‘round table’ session where people can get together to share stories, advice, pictures and memories
- **A touring exhibition** – we will be displaying the exhibition to local groups and schools to enable more people to be involved
- **Creating an archive** – all of the material and information produced will become a community archive to be available in perpetuity for people in the local area

This Project is supported by:
